tapflo®

Engineered for the Aggressive Chemicals
Built for Absolute Reliability

- Proven reliability in harsh environments
- ATEX-certified for hazardous zones
- Materials for aggressive media
- Expert engineering support

High-performance Diaphragm Pumps for Demanding Chemical Processes

Leakage-free | Durable | Chemical-resistant

Chemical-Resistant Pumps
Reliable operation
Self-priming

ATEX Pumps
Explosion-proof
Certified safety

Environmental safety
Leakage-free
Safe for toxic media

High-Efficiency Pumps
Easy service
Low operation cost

Talk to our engineers and find the perfect pump for your process

Solution for Your Industry

Chemical Processing
Acids, solvents, aggressive media

Tank Transfer & Dosing
Precise and safe fluid handling

ATEX / Hazardous Areas
Explosion-proof solutions

Waste & Contaminated Fluids
Reliable operation in difficult conditions

- Maximum chemical resistance
- Reduced downtime
- Safe, leak-free operation
- Custom-engineered solutions

Acid-Proof Pumps
Extreme corrosion resistance

Industrial Transfer Pumps
High efficiency • Continuous duty

Custom Pump Solutions
Tailored to your process

Performance you can rely on
Safety you can trust
