

EC 1935/2004 and EC 10/2011 Declaration of conformity

Tapflo AB declares that materials in below pump models are approved for food contact according to the regulation EC 1935/2004 and EC 10/2011.

Product name: Tapflo sanitary diaphragm pumps

Pump models: T30 T80 T125 T225 T425

Material executions: STS (Housing AISI 316L, diaphragms PTFE TFM, valve balls AISI 316L)
SES (Housing AISI 316L, diaphragms EPDM FDA, valve balls AISI 316L)
SWS (Housing AISI 316L, diaphragms EPDM white, valve balls AISI 316L)
SZS (Housing AISI 316L, diaphragms PTFE TFM, valve balls AISI 316L)
SFS (Housing AISI 316L, diaphragms NBR FDA, valve balls AISI 316L)
STT (Housing AISI 316L, diaphragms PTFE TFM, valve balls PTFE)
SET (Housing AISI 316L, diaphragms EPDM FDA, valve balls PTFE)
SWT (Housing AISI 316L, diaphragms EPDM white, valve balls PTFE)
SZT (Housing AISI 316L, diaphragms PTFE TFM, valve balls PTFE)
SFT (Housing AISI 316L, diaphragms NBR FDA, valve balls PTFE)

This EU regulation applies to all food contact materials, e.g. metals, plastics and rubber materials. It requires that these materials are safe, are traceable throughout the production chain (according to above EN 10204) and that they are produced according to good manufacturing practice (GMP).

Manufacturer: Tapflo AB

Address: Filaregatan 4
S-442 34 Kungälv
Sweden
