

Engineered for the Agresive Chemicals Built for **Absolute Reliability**

Proven reliability in harsh environments

ATEX-certified for hazardous zones

Materials for aggressive media

Expert engineering support

High-performance Diaphragm Pumps for Demanding Chemical Processes
Leakage-free | Durable | Chemical-resistant

Chemical-Resistant Pumps

Reliable operation
Self-priming

ATEX Pumps

Explosion-proof
Certified safety

Enviromental safety

Leakage-free
Safe for toxic media

High-Efficiency Pumps

Easy service
Low operation cost

Talk to our engineers and **find the perfect pump for your process**

Solution for **Your Industry**

Chemical Processing

Acids, solvents, aggressive media

Tank Transfer & Dosing

Precise and safe fluid handling

ATEX / Hazardous Areas

Explosion-proof solutions

Waste & Contaminated Fluids

Reliable operation in difficult conditions

Maximum chemical resistance

Safe, leak-free operation

Reduced downtime

Custom-engineered solutions

Acid-Proof Pumps

Extreme corrosion resistance

Industrial Transfer Pumps

High efficiency • Continuous duty

Custom Pump Solutions

Tailored to your process

Performance you can rely on
Safety you can **trust**
